
LUSH The Art of Hair is proud to now hold the designation as an “Art of Hair” salon by Shu Uemura.

With this exclusive designation, we may now provide you access to this luxurious and nutrient rich line of haircare and styling tools.

Shu Style

Shu styling tools work to define, curl, sculpt or create smooth seamless styles with fluid movement. These powerful design tools help protect from heat, humidity, UV and environmental aggressors.

Depsea Water

Collected from 320 meters below the ocean surface, Depsea water is naturally purified and enriched with vital minerals. Rarely rising above the lower ocean current, it remains untouched from circulation, UV or pollution, providing ultimate richness, purity and hydration. It is with this water that the Shu line of haircare products is based. Bringing the purity of these ocean depths to you for the first time ever. Ask for them during your next visit.

FULL SHIMMER FOR COLOR TREATED HAIR

Formulated with precious Musk Rose Oil, the Full Shimmer offering is designed to meet the essential needs of color-treated hair. Musk Rose Oil is rich in fatty acids and vitamin A. Fatty acids meet the needs of color-treated hair while vitamin A helps to prevent oxidation and color fade.

MOISTURE VELVET FOR DRY HAIR

Infused with rich Camelia Oil, the Moisture Velvet range nourishes, softens and re-balances moisture in dry hair. Camelia Oil was traditionally used by geishas to soften, smooth and enhance the beauty of their hair. Concentrated and combined with essential lipids and minerals, it provides the hair fiber with deep nutrition and moisture.

SILK BLOOM FOR DAMAGED HAIR

Enriched with the rare Argan Oil, Silk Bloom products are designed to restore and repair the structure of damaged hair. The argan tree produces a precious oil recognized for its regenerative properties. Combined with ceramide and vitamin E, it helps to fortify the hair fiber, building strength, body and vitality.

MUROTO VOLUME FOR FINE HAIR

The Muroto Volume line draws on Depsea Water to purify and tone fine hair. First used by Mr. Shue Uemura in cosmetic products in 1998, Depsea Water originates in glaciers of Greenland and is extracted from 320m below sea level off the coast of Cape Muroto, Japan. Of extra purity, Depsea Water also contains over 60 minerals
